Welcome to Michigan Eye Institute and Michigan Eye Surgery Center,

dedicated to providing excellence in eye care.

Michigan Eye Institute has a long tradition of high quality service to our patients. From our distinguished professional staff to our state-of-the-art facilities, we offer every phase of eye care for the entire family.

Specialty Services

Laser Vision Correction

It takes only seconds to treat a lifetime of nearsightedness, farsightedness and astigmatism. Michigan Eye Institute and Michigan Eye Surgery Center provide state-of-the art, 100% blade-free treatment using femtosecond technology and the Alcon WAVELIGHT® Allegretto Wave® Eye-Q excimer laser system. Blade-free LASIK with femtosecond technology and WaveLight® technology sets the standard for laser vision correction.

Laser Cataract Surgery

Imagine life without reading glasses or bifocals. Read a book, work on the computer or drive a car with increased freedom. The dream may now become reality with laser refractive cataract surgery from Michigan Eye Institute and Michigan Eye Surgery Center. Cataract surgery is among the safest and most successful procedures performed today. Together with advanced lens implant technology, our refractive cataract surgeons offer the potential for great vision without glasses! Ask your doctor if laser cataract surgery with advanced lens implant technology is right for you.

Glaucoma Laser Treatment

SLT laser (Selective Laser Trabeculoplasty) brings welcome relief to glaucoma patients. This safe and simple 5 minute in-office laser treatment reduces eye pressure in most patients. SLT works by using laser light to stimulate the body's own healing response, improving fluid flow in the eye and lowering your eye pressure. When discussing glaucoma therapy with your doctor, ask if you are a candidate for SLT.

Michigan Eye Institute and Michigan Eye Surgery Center combine advanced clinical skills and technology with a commitment to patient satisfaction.

Optical Services

Visit Michigan Eye Institute-Optical, and see the best. We offer a wide selection of eyewear – including eyeglasses, contact lenses and specialty packages – for the whole family. Our doctors work hand-in-hand with our opticians to assure that all eyewear meets their specifications and the patient's needs.

Our optical services are provided by experienced, certified opticians. Moreover, our in-house laboratory assures quality, reliability, accuracy and rapid turnaround for your eyewear.

EXCELLENCE IN EYE CARE

Michigan Eye Institute and Michigan Eye Surgery Center provide comprehensive eye care for patients of all ages.

Our services range from basic eye examinations and optical services to treatment of complicated medical and surgical eye problems including:

- Complete eye examinations
