Highly Trained Professional Staff

Michigan Eye Institute's eye care team includes ophthalmologists and optometrists with outstanding training and expertise. Our ophthalmologists are **all Board-certified** by the American Board of Ophthalmology, and all serve as Assistant Clinical Professors at Michigan State University College of Human Medicine.

Gary M. Keoleian, M.D., Ophthalmologist,

did his undergraduate work at the University of Michigan, then went on to the University of Michigan Medical School. He completed his residency in ophthalmology at the Mayo Clinic in Minnesota and a glaucoma fellowship at the Bascom Palmer Eye Institute at the University of Miami Medical School.

David K. Diskin, M.D., Ophthalmologist,

did his undergraduate work at the University of Michigan, then went on to the University of Michigan Medical School. He completed his residency in ophthalmology at the Cleveland Clinic Foundation in Ohio.

Jeffrey A. Diskin, M.D., Ophthalmologist,

did his undergraduate work at the University of Michigan, then went on to the Wayne State University School of Medicine. He completed his residency in ophthalmology at William Beaumont Hospital in suburban Detroit.

Bernard C. Tekiele, III, O.D., Optometrist,

completed his undergraduate work at the University of Michigan, and went on to the Illinois College of Optometry in Chicago. He completed his internship at the Cleveland VA Medical Center in Ohio and his residency in Family Practice

Optometry at the University of Alabama at Birmingham/The Medical Center. He has received additional training in Excimer Laser Vision Correction from Northeastern State University in Oklahoma.

Ann Marie Kautz, O.D., Optometrist,

graduated from the Michigan College of Optometry at Ferris State University. She has served as a clinical instructor at the University of Auckland, New Zealand, in the Department of Optometry and Vision Science.

Deborah A. Sheere, O.D., Optometrist,

graduated from Michigan State University and the Michigan College of Optometry at Ferris State University. She received advanced training as a low vision specialist at the Beaumont Eye Institute.

Kimberly L. Phipps, O.D., Optometrist,

graduated from Western Michigan University and the Ohio State University College of Optometry. She received additional training at the Veteran's Administration Outpatient Clinic in Columbus, Ohio.

Jennifer S. Tekiele, O.D., Optometrist,

completed her undergraduate work at the University of Toledo before going on to the Illinois College of Optometry in Chicago. She received advanced training at the Cleveland Veteran's Administration Medical Center in Cleveland, OH.

Gerianne J. Mulanix, O.D., Optometrist,

completed her undergraduate work at the University of Michigan-Flint and received her doctorate from the Illinois College of Optometry. Dr. Mulanix went on to complete a residency at the Lexington VA Hospital in Kentucky to specialize in ocular disease and low vision rehabilitation. She now serves her patients by providing comprehensive medical eye care.

Welcome to Michigan Eye Institute,

a practice dedicated to providing you with excellence in eye care.

Michigan Eye Institute has a long tradition of high quality service to our patients. From our distinguished professional staff to our state-of-the-art facilities, we offer every phase of eye-care for the entire family.

MICHIGAN EYE INSTITUTE *Specialty Services*

Laser Vision Correction

It takes only seconds to treat a lifetime of nearsightedness, farsightedness and astigmatism. Michigan Eye Institute provides state-of-the-art, 100% blade free treatment using Intralase™ technology and the VISX STAR S4™ Excimer Laser System and WaveScan WaveFront® System. Blade free LASIK with Intralase™ technology sets the standard for laser vision correction.

This safe, effective procedure is performed in our Flint and Fenton facilities. See what you are missing. Schedule a complimentary personal

consultation to learn more about this life changing procedure.

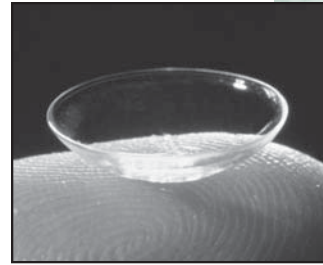

Refractive Lens Implant Surgery

Imagine life without reading glasses or bifocals. Read a book, work on the computer or drive a car with increased freedom. The dream may now become reality with new lens implant technology. The AcrySof ReSTOR aspheric and Crystalens™ offer a high level of glasses free vision. The surgery is among the safest, and the most successful procedures performed today. Ask your doctor if this advancement is right for you.

Glaucoma Laser Treatment

SLT laser (Selective Laser Trabeculoplasty) brings welcome relief to glaucoma patients. This safe and simple 5 minute in-office laser treatment reduces eye pressure in most patients. Its use has allowed for an improved quality of life for thousands of patients around the world. SLT works by using laser light to stimulate the body's own healing response, improving fluid flow in the eye and lowering your eye pressure. When discussing glaucoma therapies with your doctor, ask if you are a candidate for SLT therapy.

Michigan Eye Institute combines advanced clinical skills and technology with a commitment to patient satisfaction.

Services

Visit Michigan Eye Institute-Optical and see the best. We offer a wide selection of eyewear – including eyeglasses, contact lenses and specialty packages – for the whole family. Our doctors work hand-in-hand with our opticians to assure that all eyewear meets their specifications and the patient's needs.

Our optical services are provided by experienced, certified opticians. Moreover, our in-house laboratory assures quality, reliability, accuracy, and rapid turnaround for your eyewear.
